Dear Honorable Members:

The purpose of this letter is to request a revision to the Department of Health's Table of Organization for Department 710, PHAB Accreditation Section. Specifically, we request that the Health Marketing Administrator and Government Services Analyst positions, along with their associated funds, be moved to Department 700, Director's Table of Organization.

The City of St. Louis PHAB Accreditation Team ensures that the Department of Health meets national public health standards in leadership, governance, community engagement, workforce development, quality improvement, and performance management.

Placing the PHAB Accreditation Team under the Director of Health is appropriate because it operates as a strategic, department-wide function focused on governance, quality improvement, and compliance with national standards. Additionally, the Health Services Manager I, who supervises these positions, is already part of the Director's Table of Organization. Aligning these roles under their existing manager strengthens oversight, improves coordination, and places the accreditation team within the correct executive structure.

Funds are available to support these positions.

Thank you for considering my request. If you should have any questions or require any additional information, please do not hesitate to contact me at 657-1595.
