Re: Table of Organization Change – Airport Authority – Airfield Maintenance

Dear Honorable Board Members:

I respectfully request the approval of the following change to the Fiscal Year 2027 table of organization for the Airport Authority:

ADD:

Job Class	Number of Positions	Code	Grade
Airfield Maintenance Worker (Limited Term)	20	3324	205G

*Working Title: **Airfield Maintenance Worker (Limited Term)**

The Airport Authority is requesting approval for a **Limited-Term Airfield Maintenance Worker** to provide temporary operational support to the Airfield Maintenance Department during the upcoming snow and winter weather season. This request will establish **twenty (20) Limited Term Airfield Maintenance Worker** positions within the Airfield Maintenance Department. The position has an **hourly pay rate of \$19.69. Limited Term dates of November 1, 2026- April 1, 2027.**

While the employee will perform the established duties and responsibilities associated with the **Airfield Maintenance Worker** classification, the **primary purpose of this limited-term appointment is to provide additional staffing and workforce coverage for snow call and winter weather operations.** During snow and ice events, maintaining sufficient personnel is particularly critical because Airfield Maintenance must provide continuous coverage to keep runways, taxiways, ramps, service roads, and other critical airfield areas operational and safe. The limited-term employee will supplement existing staff during this period and assist with snow and ice removal, operation of snow-removal and other maintenance equipment, treatment of airfield surfaces, FOD and debris removal, emergency and weather-related response, and other Airfield Maintenance Worker functions as operationally necessary. This will allow the department to better meet increased workforce demands associated with

support during the winter weather season. While maintaining adequate coverage and continuing safe, efficient, and reliable airfield operations throughout the winter season.

Respectfully,

Gerald A Beckmann
Acting Director of Airport

cc:

Casey Millburg, Chief of Staff, Mayor Office
Benjamin Jonsson, Executive Director of Operations, Mayor Office
Bryan Boeckelmann, Deputy Director, Department of Personnel
Sonja Bussey, Department of Personnel
Gerard Hollins, Deputy Director of Finance & Administration, Airport Authority
Cole Meyer, Airport Assistant Director Operations Airside Operations
